

## CHINESE WOMEN AID REVOLUTION

Contribute Liberally to the  
Republican Treasury.

Refund Guarantees if the  
Manchus Are Routed.

Donations Come from San  
Francisco and Oakland.

(BY DIRECT WIRE TO THE TIMES.)  
SAN FRANCISCO, Oct. 17.—[Exclusive Dispatch.] Impelled by the spirit which prompts the men to contribute their hard-earned savings to the cause of the revolution, the Chinese women in San Francisco and Oakland are giving liberally and in addition are circulating subscription lists for the cause.

In soliciting subscriptions the Chinese have adopted a unique financial policy which insures of refunded donations. When amounts of \$10 or more are contributed the donor is given an official certificate entitling him to his money back and a large per cent. in addition in case the revolution is successful.

TRADE RELATIONS.  
Trade relations with China are likely to be disturbed for some time, according to Sing Fat, the head of the Chinese store of the name, and probably one of the wealthiest in the city. The most influential member of his race in the United States.

"I would not advise any importer to make extensive purchases in China at this time," he said, "and neither would I advise Chinese merchants to buy goods in large quantities from America, for the simple reason that, with the unsettled conditions there, the doubt on delivery exists to a large extent."

RISK IN THE NORTH.  
"Furnaces to be shipped from Southern China or forced there might go through easily at this time, but there is a risk in the North."

"Local conditions are improving every day. Subscriptions for the cause are pouring in and the ladies of a number of Chinese households are aiding in the work of soliciting funds. This morning several Chinese ladies from Oakland called at the headquarters in Spofford Alley and made liberal donations."

modern gunboats, which carried Admiral Sah Chen Ping, who immediately took command of the situation. His move was to assure the foreign consuls that the foreign concessions would not be endangered by any bombardment which he might undertake. His purpose, it was believed, was to begin shelling the rebel defense around Wu Chang at once.

The Red Cross Society organized today moving the heaped up bodies from the streets of Wu Chang. Well-to-do Chinese are subscribing liberally to the funds for the work.

The revolutionary determination to end the regime of official graft was brought sharply to attention today by the execution of an officer who had been appointed to collect funds for the rebel cause. He was caught in an attempt to divert some of the money to his own pocket and promptly beheaded.

No trains are leaving the Hankow terminal for the North and it is uncertain when service will be resumed. The tracks have been cleared of the government troops.

### ALARM IN SHANGHAI.

(BY A. P. DAY WIRE TO THE TIMES.)

LONDON, Oct. 16.—A dispatch to the Post from Shanghai says there has been a run on native banks there. Up to the present only one bank has failed to meet demands. The foreign banks have shipped \$5,000,000 to Hankow to meet runs on Chinese banks.

Native banks everywhere are sending their silver to Shanghai. Every steamer arriving at Shanghai is crowded with refugees.

### NEGOTIATE A LOAN FOR THE REBELLION.

(BY A. P. NIGHT WIRE TO THE TIMES.)

SAN FRANCISCO, Oct. 17.—A cablegram from China, received late today by the Chinese Free Press of this city, stated that the Chinese Imperialist Hui Chai now at his headquarters in London, had ordered to proceed immediately to London and supply a skeleton crew for a training ship now being constructed at an English yard for the Chinese navy. The training ship, it was said, was about ready for sea and both vessels were ordered home under forced draft by way of the Suez Canal.

Secretary Tong King Chong of the Chinese Free Press, whose organization has absorbed the Young China Association, said today that Dr. Sun Yat Sen, mentioned as probable President of the Chinese Republic should the revolution be successful, would be in New York tomorrow. Dr. Sun's present purpose, he said, was the negotiation of a loan to the Revolutionists.

A dispatch from Shanghai was received today with news that the Revolutionists have called for 20,000 volunteers for the defense of Wu Chang and 60,000 men in the field at that point, half of which will be used to intercept the Imperialist troops marching southward.

It is announced here that since the declaration of the Republic, the Kwok Min, the Chinese national association, composed of the Chinese Free Press and the Young China Association, has raised a fund of \$500,000 to be used in financing the revolution. This sum was contributed by the Chinese in America, practically in the Chinese in America.

The dispatch continues with an account of active military preparations on the part of both the Imperial and the revolutionary forces, saying: "The Governor of Hui Han is said to have telegraphed the central government at Peking that numerous bodies of the Revolutionists are arriving daily in his province. Imperial troops have been dispatched to the locality, but no engagements have been reached. Gen. Li Yuan has been given the title of Commander-in-Chief by the Revolutionists."

The Imperial gunboats under Admiral Sah Ping have arrived at Hankow, and it is reported the foreign consuls have asked that all naval

and land engagements take place sixty miles from the foreign concessions. Many foreigners are leaving Hankow.

The Imperial Board of Finance at Peking has called on the provincial agents to gather all funds possible to send to Peking. Chen Kwei Lung, Viceroy of the province in which Peking is situated, is said to have resigned twice, but has been prevailed upon each time to remain.

Gen. Kiang Kwei Hal has arrived at Shanghai and will proceed to Peking to command the Imperial guard.

### REINFORCEMENTS FOR THE GERMANS.

(BY A. P. DAY WIRE TO THE TIMES.)

BERLIN, Oct. 17.—Advices received at the Foreign Office from Hankow today report that a German force of blue-jackets reinforced by German local residents have been landed at Hankow and are engaged in fighting in the streets with a Chinese mob.

The official report states that detachments were landed from the cruiser Lepso and the gunboats Tiger and Vatelander. Members of the German colony volunteered to support the marines.

The Admiralty understands the Germans are co-operating in the international landing corps movement commanded by the Japanese naval captain.

The large German cruiser Gneisenau will arrive at Hankow tomorrow with Vice-Admiral von Krosigk, commander of the German Asiatic squadron. As the German vice-admiral has a rank superior to the Japanese vice-admiral, it is probable that he will supersede the latter in chief command of the international naval forces.

A German torpedo boat is accompanying the Gneisenau to Hankow.

### FALL OF KAI FUNG.

(BY A. P. NIGHT WIRE TO THE TIMES.)

PAO TING FU, Oct. 17.—[By A. P. Night Wire.] Kai Fung, the capital of Honan province, is reported to have fallen before the revolutionists.

### NANKING IN DANGER.

(BY A. P. NIGHT WIRE TO THE TIMES.)

PEKING, Oct. 17.—[By A. P. Night Wire.] Acting Consul at Nanking, Alvin W. Gilbert, telegraphed the American legation here today that the fall of Nanking is imminent. He requests that a gunboat be sent there.

### THE WILDE TRIAL.

PORTLAND (Or.), Oct. 17.—[By A. P. Night Wire.] The State Circuit Court today set January 2 as the date for the trial of Louis J. Wilde of San Diego, who is under indictment in connection with an alleged sale of telephone bonds to the Oregon Trust and Savings Bank which failed here in 1907.

The date previously had been set for November 6, but was changed at the solicitation of counsel for the defense.

### THE PRUNE CROP.

SAN JOSE (Cal.) Oct. 17.—Prunepackers report that owing to the unusually cool summer and the presence of fog, the valley prunes are showing an extraordinary shrinkage. They will run not less than 2 1/2 pounds of green to one pound of dried, whereas the normal ratio is 2 1/4 pounds to one of dried. This will cause a loss of 15 per cent. to packers.

### NEW CHARTER.

STOCKTON, Oct. 17.—Stockton gained a new charter today by a majority vote of 354. All told, 3215 votes were cast. The Charter League with forty automobiles was busy all day getting voters to the polls. The saloons and the politicians were equally active to defeat the document. By its terms Stockton gains the initiative, referendum and recall with the commission form of government. The new charter will go into effect a year hence. The First Ward voted against the charter 456 to 228. At the election of October 19 Stockton's total vote on the amendment was 2297. The larger vote of today is due to the keen activity of parties interested.

## OFFICIAL VIEW OF THE DISASTER

Secretary of the Navy on the  
Destruction of Maine.

Thinks Explosion Was Due to  
External Cause.

No Smokeless Powder on  
Board at the Time.

(BY DIRECT WIRE TO THE TIMES.)  
WASHINGTON, Oct. 17.—[Exclusive Dispatch.] George Von L. Meyer, Secretary of the Navy, today gave out the first official statement bearing on the cause of the Maine disaster in Havana Harbor, in 1898, which has been made by the Navy Department since the work of examining and removing the wreckage began.

The Secretary, after receiving the report of W. L. Capps, former chief constructor in the navy, who had just returned from examining this wreck, and after seeing reports from Rear Admiral Nathan C. Twining, chief of the Navy Bureau of Ordnance, inclines to the view that an external explosion destroyed the ship.

In his statement, Secretary Meyer said: "On February 14, 1898, the U.S.S. Maine was destroyed by an explosion in the harbor of Havana, Cuba. The cause of the explosion which destroyed her has never been definitely ascertained, but the court of inquiry which investigated the circumstances, reported that the initial explosion was due to a mine, or other cause, external to the ship. In spite of these facts, statements are frequently made in the press and elsewhere that the destruction of the Maine was, or may have been, due to spontaneous combustion of the smokeless powder on board. That such could not conceivably have been the case is shown by the fact that there was no smokeless powder on board at the time of the explosion. This fact is a matter of record in the Bureau of Ordnance."

## This Kidney Remedy Gives Immediate Relief

In 1907 and 1908, I was taken very sick with kidney trouble and being afraid of Bright's Disease, went to a prominent physician at Libertyville, Iowa. After doctoring for some time without cure or benefit, I began the use of Swamp-Root and found immediate relief, which urged me to continue the use of the medicine.

After taking several bottles which I bought at Jericho's Drug Store, in Fairfield, I became a well man and can honestly say that I have never had any signs of Bright's Disease or a return of any kidney trouble.

I am so grateful toward Dr. Kilmer's Swamp-Root that I never hesitate to recommend it to any one I know who is suffering with kidney trouble.

Yours very truly,  
MACE CLINKINBEARD,  
Fairfield, Iowa.

State of Iowa,  
Jefferson County,—

Subscribed and sworn to before me by the said Mace Clinkinbeard, and the signature acknowledged by him to be genuine, this 13th day of July, 1909.  
CHARLES S. CRAIL,  
Notary Public.

Letter to  
Dr. Kilmer & Co.,  
Binghamton, N. Y.

Prove what Swamp-Root will do for you. Send to Dr. Kilmer & Co., Binghamton, N. Y., for a sample bottle. It will convince anyone. You will also receive a booklet of valuable information, telling all about the kidneys and bladder. When writing, be sure and mention the Los Angeles Daily Times. Regular fifty-cent and one-dollar size bottles for sale at all drug stores.

TURKEY REFUSES TO  
BE MORE EXPLICIT.

(BY DIRECT WIRE TO THE TIMES.)  
CONSTANTINOPLE (via Philadelphia), Oct. 17.—[Exclusive Dispatch.] Replying to the last note of the powers, Turkey has refused to be more explicit in regard to the details of her proposals for mediation. The Porte says the maximum of Turkey's concessions has been stated. Stronger measures for the security of Constantinople are being taken. There are fears of a rising of the populace against the young Turks.

### TURKISH FLEET ON A MISSION.

(BY A. P. NIGHT WIRE TO THE TIMES.)  
LONDON, Oct. 17.—A dispatch to the Daily Mail from Gallipoli, European Turkey, says a division of the Turkish fleet sailed this morning from the Golden Horn for an unknown destination. The number of ships could not be ascertained, owing to the unfavorable light.

A Constantinople dispatch says six warships have arrived off Mytilene.

### NO PROSPECT OF EARLY PEACE.

(BY A. P. NIGHT WIRE TO THE TIMES.)

BERLIN, Oct. 16.—The outlook for a successful intervention to bring to an end the Turco-Italian war is becoming less favorable, according to a semi-official statement today. Italy has yielded to public opinion at home and is not longer willing to concede a Turkish suzerainty for Tripoli, while Turkey is not willing to surrender Tripoli unconditionally because of the internal dangers that have been involved by such yielding on the part of the government.

Accordingly, diplomats here see no chance for mediation at present, or until the attitude of the Turkish Chamber of Deputies is ascertained. The Chinese situation is most delicate and no surprise would be felt here if it caused international negotiations to determine on joint action by the powers.

### RED CROSS FUND JEALOUSLY GUARDED.

(BY A. P. DAY WIRE TO THE TIMES.)

WASHINGTON, Oct. 17.—As the Red Cross knows no nationality in its administration, it is expected that the international association will give what aid it can to the Chinese revolutionists in their efforts to organize a Red Cross service during the present insurrection. A number of American and European medical officers are in China, and it is believed that their services will be available in organizing field hospital service.

Through a provision peculiar to the Italian Red Cross the soldiers of Italy who are sick or wounded in the Tripolitan campaign will be provided for. The Italian branch of the Red Cross has a fund of \$1,750,000 in its reserve, set apart especially for use in time of war. This fund is jealously guarded against drafts in time of peace, no matter how worthy the object, even in case of such a disaster as the Messina earthquake.

### BUY A RIFLE.

SAN FRANCISCO, Oct. 17.—The clerks in the general land office of the Southern Pacific Company in this city today started a subscription list with the proceeds of which it is proposed to buy a repeating rifle, cartridge belt and supply of ammunition for Victor Gomez, the Mexican night watchman at Captain bridge, who discovered the dynamite "plant" before the arrival of President Taft's train. The heads of the list praise Gomez in unmeasured terms for his prompt action and express a hope that he will "shoot to kill next time."

### VALUES ONE EYE.

SANTA CRUZ (Cal.) Oct. 17.—[Exclusive Dispatch.] The Spreckels Sugar Company is made defendant in a \$20,000 damage suit filed in the Superior Court today by W. H. Kimball, who met with an accident at the Spreckels plant, in which he lost the sight of one eye. Kimball alleges he was directed by the foreman to chase some rivets from a bin after he had demurred, stating he was not familiar with the metal bin was coiled, and that, as he says, there was danger of the chisel rebounding.

**MUSICAL INSTRUMENTS**  
FOR SALE—THE PIANO OPPORTUNITY YOU'VE BEEN LOOKING FOR. We're one price (your protection) remember that. Payments arranged to suit your convenience. Never mind our reasons for these unusual prices. Look at the prices and the descriptions. IVERSEN & POND—Elegant mahogany hand-carved case, can hardly be told from real. Left on sale. Originally purchased for \$500. Price now \$150.  
KRAKAUER—Fine walnut case, large size. The local dealer who handles this piano has \$400. Practically new. Price now \$150. This is the biggest value for the money you will find anywhere in Los Angeles. Remember the price of this Krakauer piano is only \$150.  
KELLER & ROSE—Walnut case, full sized, genuine ivory keys. Used about two years. Has been thoroughly overhauled. Price now \$150.  
OAKLAND—Beautiful colonial case, genuine San Domingo mahogany, hand-carved. To hear this piano is to want it. The only piano for the price is the Krakauer piano. It is very easy to make comparisons, but let us repeat: Come early, for these pianos are going fast. From \$80 up will find ready buyers.

**The Kranich & Bach**  
The Kranich & Bach is best known  
for its expert tone quality. It is  
adapted to the "violin" piano, an ex-  
treme feature, embodying the violin  
frame construction. It acquires extra-  
ordinary strings of any  
length. Sounding  
is the reason for its  
superior "harmonic" tone.  
The price of this expert instrument  
will fill up.

**The Artistic Sohmer**  
The Sohmer is a favorite Piano with  
Professional people, and perfectly  
adapted to the Concert Room or the  
Home. By an exclusive method of  
frame construction it acquires extra-  
ordinary strength, and is enabled to  
withstand unusual strain on the  
strings. Hence its richness and full-  
ness of tone, and the fact that it is  
always up to pitch. Sohmers are  
priced from \$450 up.

**The Reliable Kurtzmann**  
The Kurtzmann, priced at \$775 up, is positively unequalled and unapproached  
in its class. It is the best low-priced Piano produced. Its tone is superior  
and its construction is perfect. It withstands perfectly the hard, con-  
stant use of the student, growing really sweeter toned and better  
with long use. More than Fifty-one Thousand Kurtzmans are in daily use  
and this evidence of the wide popularity of this splendid instrument.

**Grand Pianos**  
Any of these Pianos—  
the Kranich & Bach,  
Sohmer or the Kurtz-

**Dr. Sun Yat Sen Reported on**  
**Way to Los Angeles.**

**Reputed "Young China"**  
**Father Seeks Shelter?**

**Famous Chinese Exile May**  
**Be Sequestered Here.**

With his adherents fearful for his  
safety because of the recent sensa-  
tional developments regarding his asserted  
connection with the Chinese uprising,  
Dr. Sun Yat Sen, reputed father of the  
"Young China" movement, is on his  
way to take shelter with friends in  
Southern California, according to ad-  
vice received here yesterday from  
Chicago.

With him the storm-center of one of  
the most remarkable chapters in the  
war-racked history of the Flowering  
Kingdom will shift to Los Angeles, for  
this city appears to be the ultimate  
goal of the leader of the Chinese pro-  
gressive party.

California has been Dr. Sun Yat  
Sen's headquarters for the past few  
years, San Francisco being the center  
of the movement. The Chinese news-  
papers have been agitating the ques-  
tion of freedom among the resident  
Chinese and have been given strong  
support in all of the cities of the San  
Joaquin Valley and in Los Angeles.  
These missionaries have been enlisted  
the support of Chinese for the cause,  
and as a result, large sums of money  
have been sent to China for the pur-  
pose of fomenting the movement.

Sun Fo, son of Dr. Sun Yat Sen, has  
taken up his father's work and is in  
charge of the movement in San Fran-  
cisco, during his father's absence. Dr.  
Sun Yat Sen has other relatives in  
Bakersfield, where an aunt and a  
cousin, a Dr. Sun, live.

**UNOSTENTATIOUS.**  
In this city, the agitation has never  
been brought to the notice of the pub-  
lic and it is supposed that it is on this  
account that Dr. Sun Yat Sen is com-  
ing here. In all likelihood he will re-  
main incognito.

The revolution in China at the pres-  
ent time is the result of his constant  
efforts for the past twenty or twenty-  
five years and if it were not for his  
backers state that he will be the first  
president of the proposed republic.

It was in the early '90s that Dr. Sun  
Yat Sen, a graduate of a British uni-  
versity, began his career as an agitator  
for better conditions in China. He  
was born near Hongkong and received  
his education in the British schools at  
that city and in England.

His first efforts were among his  
countrymen around the colony of  
Hongkong and his first real trouble re-  
sulted from it. He created such an  
uprising in Hongkong in 1895 that the  
Governor of the colony placed a price  
of \$2000 on his head.

With the help of his friends, he  
managed to escape from the colony  
and went to England, where he made  
an appeal for protection. It was not  
in vain, for he had succeeded in win-  
ning a number of friends during his  
previous stay there. Through the in-  
tervention of Queen Victoria.

**TWENTY-YEAR EXILE.**  
Through Her Majesty, the sentence  
of death was commuted to twenty  
years' banishment, so that he was not  
deported, but he was not allowed to  
return to the protection of that  
colony until 1915.

That Dr. Sun Yat Sen has lived in  
Hongkong has been known to the Bri-  
tish authorities, but through the vigi-  
lance of his many friends he has never  
been detected.

Although he has not done anything  
to provoke the wrath of the govern-  
ment of Hongkong since that time, he  
has continued his efforts to aid his  
mother country and for the most part  
has used Hongkong as his base.

In March, 1908, he headed a revolu-  
tion near the border of Siam and was  
defeated. He returned to Hongkong  
in the garb of a Japanese. All of the  
British newspapers of Hongkong were  
on the alert to get an interview from  
him, but he was too wary for them.  
Since that time, his activities have been  
carried on for the most part on this  
side of the water.

**P**RESIDENT TAFT practically said  
farewell to Southern California  
when his train pulled out of  
Long Beach yesterday shortly after  
12 o'clock, noon. His morning was not  
characterized by the strenuousness of  
the previous day, but he was fairly  
busy. His efforts at speech-making  
were confined to a few very brief re-  
marks delivered to the faculty and  
students of the University of South-  
ern California, and an elaborate ad-  
dress to the people of Long Beach as-  
sembled in Pacific Park to the num-  
ber of many thousands.

Mr. Taft was late in making his  
morning start. Doubtless he had been  
thoroughly tired by Monday's work  
and the late banquet which was held  
the same night at the Alexandria. His  
kindle in his sister's house defied  
secret service men, railway managers,  
entertainment committees and every-  
body else to allow the man who holds  
the greatest office in the world to rest

After having passed a part of the  
afternoon identifying a double hand-  
ful of precious stones in various kinds  
of settings as those her husband gave  
her on their wedding day, Dora Mc-  
Donald, notorious as the slayer of  
Webster Guerin, for whom she de-  
fendant Mike McDonald, Chicago's for-  
mer gambling king, was confronted  
yesterday by an attack upon her  
credibility as a witness, before Super-  
ior Judge Burroughs of Lassen county.

The jewels, valued at \$5000, are  
involved in a replevin suit which re-  
sulted in their being placed with the  
County Clerk for safe-keeping. Mrs.  
McDonald charges her stepson, Guy,  
and his wife, Pearl McDonald, ob-  
tained them by fraud.

Dora McDonald, the plaintiff, is tall  
and of generous build, while Pearl  
McDonald is of medium height and  
given to fits. The younger woman was at-  
tacked by the plaintiff in the actual  
wedding of the suit, wore a gown of  
white material, topped by a black  
hat. This was the only jewelry she  
wore, a pearl earring and a gold  
and gem-studded necklace. Through-  
out the proceedings they ignored each  
other.

On inspecting the gems the plain-  
tiff told the court she recognized a  
number of them. She declared, how-  
ever, that she was uncertain as to  
some of the stones, most of them di-  
amonds, alleging that the settings of a  
number of them had been replaced by  
substitutes.

It was announced by Attorney L. B.  
Binford that so far as the plaintiff  
was concerned, the case would be  
confined to issues in the actual own-  
ership of the jewelry, and that there  
would be no mud-slinging.

Later, however, counsel for the de-  
fendants tried to drag family skele-  
tons from the closet by touching on  
the plaintiff's desertion of the cele-  
brated gambler, Judge Burroughs  
sustained objections to the evidence.

The case is to be resumed this  
morning.

**STUPID AND**  
**MALICIOUS.**

**Evening Express Story as to**  
**Gen. Otis and the Gov-**  
**ernor.**

Characteristic untruthfulness  
marks the malicious story  
printed by last evening's Ex-  
press about a chance encounter  
of Gov. Johnson and Gen. Har-  
rison Gray Otis during the visit  
of the President in Los Angeles.  
It is not true that the general  
sought a meeting with the  
Governor.

The only vestige of truth in  
the whole story is that the  
Governor and the general col-  
lided, and it was purely by ac-  
cident.

The fact is that Gen. Otis  
sought and secured an introduc-  
tion to Adj. Gen. Forbes, not  
knowing that he was in the  
same automobile with the Gov-  
ernor, and he did not recognize  
the Governor when he ap-  
proached the automobile. One  
of the committee of arrange-  
ments, without due reflection,  
undertook to introduce Gen.  
Otis to the Governor, without  
consulting either Gov. Johnson  
son protested that he did not  
want an introduction and Gen.  
Otis emphatically did the same.

"I did not come here to be in-  
troduced to you, Mr. Johnson,"  
he said.

"I want to preserve my atti-  
tude of hostility to you," said  
the Governor.

"That is right; stand fast; I  
will do the same," said the  
general, again assuring the  
Governor that he did not come  
up to be introduced to him.

Adj. Gen. Forbes graciously  
accepted an introduction, and  
the incident closed.

Gen. Otis went on his way,  
leaving the Governor to fume  
and sputter over an episode due  
to the mistaken wish of a  
gentleman to do what he con-  
sidered the courteous thing.

It is a matter of common  
knowledge that Gov. Johnson is  
one of the last men on earth  
whom Gen. Otis would seek to  
meet or to whom he would wish  
to speak.

**T**HE harbor of Los Angeles and the  
plans that have been made for  
its improvement will be passed in  
review today by the man whom en-  
gineers pronounce to be the greatest  
terminal expert in the world.

Irving T. Bush, president of the  
Bush Terminal Company of New  
York, dropped quietly into Los An-  
geles yesterday morning and is stay-  
ing with relatives here. Tonight he  
will be the guest of President Jess  
of the Harbor Commission at a dinner  
given in his honor at the Alexan-  
dria. The other members of the com-  
mission will be present with Secretary  
Fleming and members of the Ad-

Bush has been expected for several  
days, for the commissioners have  
been in correspondence with him for  
some time, and he is to give his sug-  
gestions to the board and to offer his sug-  
gestions for carrying into effect the  
plans that are to make Los Angeles  
Harbor one of the greatest terminals  
in the world.

Today he will accompany Secretary  
Fleming to Wilmington and San  
Pedro and will go over the bays and  
inspect the work already accom-  
plished. He has been familiar with  
the general scope of the project for  
some time, but before he could give  
his professional advice, it was nec-  
essary for him to see the ground.

The Bush terminal, situated on the  
South Brooklyn water front in New  
York, is regarded as the most per-  
fectly constructed and organized in  
the world. Figures received by the  
Harbor Commission show that the

cost of the terminal company's piers  
and warehouses has been in the neigh-  
borhood of \$14,800,000. The income  
from the property, after deducting all  
expenses and interest on bonded se-  
curities, was \$629,000 last year.

It is the idea of the Harbor Com-  
mission to follow the general plan of  
the Bush Terminal properties in the  
harbor improvements here, and the  
dock Commission has recommended  
in New York that the plans shall be  
followed in all city wharves and ter-  
minals there.

In New York, an enormous sum is  
about to be expended in terminal im-  
provements on the South Brooklyn  
water front and the city has been ad-  
vised by its engineering officials that,  
as the Bush Terminal Company's  
properties are in the center of the  
property acquired by the city, the city  
should buy it. It is admitted that this  
will have to be done before many  
years at the latest.

"The lesson of the Bush Terminal  
Company," said Secretary Fleming of  
the Harbor Commission yesterday, "is  
that municipalities must control their  
terminal facilities. It gives them the  
command of the situation. With a  
line of steamships, such as the gov-  
ernment owns and which should not  
be taken off in my opinion, as has  
been proposed, there would be no  
danger of railway domination, for  
such steamship control would break  
up the strongest railway pool ever or-  
ganized."

How long the Bush Terminal Com-  
pany's president will remain in Los  
Angeles has not been determined.  
The length of his stay will depend  
on the amount of work he finds it  
necessary to do.

Commenting on the affection pre-  
vailing among the members of the  
family before her death, Mrs. Rebe-  
ca Jeffries, mother of James Jeffries,  
former heavyweight champion of the  
world, in a codicil to her will, which  
was filed for probate yesterday and  
disposes of \$99,325 in property, never-  
theless provided for the cutting and  
sale of some of it who should oppose  
her last testament.

The bulk of her estate Mrs. Jeffries  
leaves to her seven children, Almida  
(M), Bern, Lydia A. Southworth, Lillie  
M. Metcalf, Willie E. J. H. James J.  
and C. M. Jeffries, who get share and  
share alike.

To her husband, Alexis C. Jeffries,  
but \$1000 is left, with the request that  
"the children render unto their father  
their support and affectionate regard  
and protection, but it is not my inten-  
tion that any charge be imposed upon  
my estate for this purpose."

John H. Jeffries is made trustee of  
\$1000 for two grandchildren, Re-  
becca and Lillie, son and daughter of  
Clement C. Jeffries, until they are of  
age.

The codicil reads: "For each of my  
children, all of whom are named, I en-  
treat the deepest affection, and the  
provisions of my will were decided up-  
on only after mature deliberation and  
in the sincere belief as to their fairness  
and justice toward all concerned. The  
same is true as to my beloved husband.  
It is my sincerest wish and desire  
that my family maintain that mutual  
confidence, respect and affection be-  
tween its several members after my  
death, that has been informally main-  
tained during my life, and to each of  
them I make special appeal in that  
behalf."

If any child or heir of mine shall  
in any manner endeavor to appeal or  
set aside the probate of my will, then  
give to him or her \$100 and no more,  
in place of any other interest in my es-  
tate or under my will. In all other  
respects my will is reaffirmed and re-  
declared.

Mrs. Jeffries made her will on Au-  
gust 25, last, and the codicil was  
added on September 11. She names  
as executors Almida J. Boyer, J. H.  
Jeffries and C. M. Jeffries. The attor-  
ney is Oscar Lawler.

News of Interest  
from Oil Fields.

Special Correspondent of The Times.

COALINGA, Oct. 18.—No. 3 A of  
the Coalinga Syndicate Oil Company,  
which is a twenty-eight foot well,  
drilled by the Coalinga Syndicate  
Oil Company, and the oil stands with-  
in 100 feet of the top of the hole.  
The well was drilled into this sand  
and is now being used for a  
water supply. It is the only well  
of the kind in the Coalinga field.  
The sand was found at 2774 feet in 3 1/4 inch  
hole.

The No. 3 A well is down over 2100  
feet to the 28-inch casing, and this cas-  
ing is now being used for a water  
supply. It is the only well of the  
kind in the Coalinga field.

The Coalinga Syndicate is one of  
the largest oil companies in the Ham-  
burg area, and is being drilled by  
the Coalinga Syndicate.

Greene and Phelps expect to get  
a well in a little over 300 feet, and  
then they can bring in water to  
the well. It is the only well of the  
kind in the Coalinga field.

The other wells there flow their small  
amounts, and are not but little to  
be used.

The well will be erected  
in a few days, and will do the  
work of the other wells. It is the

its members to the headquarters to  
offer their services for the Bethlehem  
fund days, on Friday and Sat-  
urday. There were also many others  
who offered to assist in the same  
work. Booths will be established in  
leading hotels, stores and office build-  
ings. The campaign for \$1000 is be-  
ing pushed in Pasadena, as its vol-  
untary share of the \$10,000, and a ben-  
efit entertainment will be given at the  
Y.M.C.A. in that city, on Friday  
night.

On Sunday night, Mr. Bartlett will  
close the campaign in this city with  
a stereopticon entertainment in the  
First Presbyterian Church, the sub-  
ject of which will be: "Life in the  
Lowlands of Los Angeles."

NEW CAFE MANAGER.

H. J. Livingston Recently Come To  
Los Angeles To Locate With Ham-  
burgers.

Twenty years of thorough expe-  
rience has won for Livingston an en-  
viable reputation as a manager of  
cafes, hotels, restaurants and dining-  
car services. He has come to Los An-  
geles to take up his new position.  
The service of the Hamburg Cafe in  
every possible way. Livingston has  
been located for long and short pe-  
riods with the prominent cafes of  
every big city of the United States—  
gathering new ideas as he went, tour-  
ing at times for testing new methods.  
One of the interesting features  
about Livingston's capability is that  
he is adept in handling every line of  
work he directs personally. If a chef  
suddenly is called away Livingston  
"pitches in" over the frying pan. If  
the steward fails to turn up Living-  
ston is equally ready to do this work.  
There is never occasion for any in-  
convenience or inferior service—no  
matter how hampered his "force" may  
seem. He has particularly perfected  
himself in French and German dishes  
and highly garnished and tastefully  
arranged delicacies. In the Ham-  
burger Cafe Livingston is planning to  
make some interesting changes in the  
service as well as in the menus. Pre-  
vious to coming to Los Angeles he  
was on the Northern Pacific commis-  
sary.

Rear-Admiral Evans, retired, is again in California. He practically makes this State his home and its cities are fortunate to have the friendship and advice of a man of his capacity. Right now his views of the Chinese situation will be of particular interest.

#### WHAT WILL SHE DO?

Already the plea goes forth to the women of California to be kind and merciful to the men folk whom they have completely conquered. Be not drunken with power. O woman! Soft be the heel that bears upon our prostrate necks!

#### CHINESE BANKS.

China must indeed be in a bad way when a run can take place on any bank in that kingdom. Press reports say that the runs on the Peking banks Monday were riotous. China's banking laws have always been so strict that an embezzlement or a failure rarely occurs.

#### SHOOTING TO KILL.

It will be a relief to Mexico to learn that 200 of Zapata's followers have been cut to pieces, although that rugged renegade has saved his own skin. Zapata has a mean disposition and only by shooting to kill can the government make an end of him. His depredations give the new administration a black eye at every turn and the only thing to do is to kill him off and try him afterwards.

#### A NEW GAME.

Eight Italians gained their liberty in police court Monday by denying they had been playing poker and proving an alibi by showing the court just what they did play. If these gentlemen have a game in which a man can lose more money than he can at poker and still keep within the limits of the law they ought to get it patented instead of exposing their hands in a public courtroom.

#### GOODWIN'S TROUBLES.

The financial agreements of Nat Goodwin with his last wife are being aired in local courts. Women who marry Nat at this advanced stage of his career cannot expect to find him an enthusiast on the subject of matrimony. Prenuptial financial arrangements usually preclude divorce. Marriage doesn't fail because such an understanding existed, but in most cases the property contract is the big feature of the alliance.

#### CHINA IN CONVICTION.

Entirely unexpected consequences have resulted from the invasion of America by many thousands of the almond-eyed children of the Chinese Empire. These are consequences that might have been foreseen, yet no political prophet seems to have given this phase of the subject any particular attention. We were all too busy prognosticating the effect of the so-called Chinese invasion on our own people and our own industrial conditions to investigate the other side of the question. The effect on American institutions has been practically nil. The reactive forces have naturally been from the stronger to the weaker, from the Occident to the Orient, from America to China. The great empire of the east is in the throes of a mighty convulsion because of the modern ideas imbibed by some of its subjects through contact with a more virile and more progressive race and the dissemination of their ideas among the Celestial stay-at-homes.

Anyone who doubts the influence of the Americanized Chinaman in bringing about the present revolt against the Manchu dynasty has only to digest the statements made by Dr. Sun Yat Sen, at present in Chicago, the proposed president for the new Chung Hwa republic. In San Francisco alone \$3,000,000 has already been subscribed by Chinese sympathizers with the republicans, with a similar promised amount subject to call, while 130,000 men in the United States and Canada are held in reserve, ready to act as soon as the time is ripe.

The Boxer uprising eleven years ago showed how quickly the flame of revolt will spread when once kindled among the long-suffering people of China. If required a combination of world powers to check the conflagration in Peking. Given a free course, there is no telling how high the present flood may rise or how much of Asia may eventually be engulfed. It is said that a flood-tide, with a westerly wind and ice in the Neva, would sweep St. Petersburg from the face of the earth. A flood-tide of western ideas, backed by American-earned dollars with a baby emperor on the throne of China, may overthrow the most ancient empire on the globe and shake the civilized world. But these were possible consequences the framers of the Geary exclusion act never had in mind.

There will doubtless be much deliberation on the part of President Taft before he appoints an Associate Justice of the United States Supreme Court to fill the vacancy caused by the death of Justice Harlan. And the fact that the dead Justice wrote the dissenting opinion on the Standard Oil trust case will make his task the more difficult.

Cov. Harmon will soon be in Los Angeles to see his friends and perhaps discuss the weather. Remember, we said perhaps. Well, the Democrats of Southern California will find Harmon a good man—for he weighs about 200 pounds.

#### TAFT UNANSWERABLE.

Jaundiced Journalists have been for months denouncing President Taft for his vetoes of the wool and cotton schedules. They have alleged that in these vetoes he was corruptly influenced by New England manufacturers and have asserted that he is a tool of corruptionists.

If there were any material in the composition of these libellers from which a blush of shame could be manufactured they would, after reading the President's speech made here on Monday last, be scarlet from brow to neck. But their scurrilous diatribes, which a healthy regard for public opinion compelled them to suppress during President Taft's visit, will, now that his back is turned, probably be resumed with venomous vigor.

Their attacks will be totally ineffective even among the few irreconcilables who take their mental pabulum from the journals whose proprietors "clothe themselves with cursing as with a garment" whenever the name of President Taft is pronounced.

The President has spoken and his utterances at the Auditorium were clear, convincing and courageous. He called attention to the fact that he was elected by the Republican party upon a platform which demanded a protective tariff upon the basis of the difference in the cost of production of commodities abroad and the cost of their production at home. A proper determination of this question made necessary a scientific and impartial investigation of all the facts. It was impossible for the Ways and Means Committee to conduct such an investigation. The committee-room at Washington was thronged with the agents of manufacturers, intent upon procuring as high a tariff as possible and who were tempted to exaggerate the cost of producing woolen and cotton fabrics in America.

The Ways and Means Committee had no power to bring witnesses from Europe to show the cost of production there and were necessarily compelled to accept the secondary evidence contained in letters and in newspapers. Upon this insufficient and unreliable data, with Democrats intent on a revenue tariff only, and Republicans pledged to a protective tariff only, and insurgent Republican Senators vibrating upon the ragged edges of uncertainty and time-serving, the woolen schedule was tossed like a shuttlecock between the remorseless battle-dores of partisanship, and it emerged a beaten, bruised and shapeless thing, which was neither fish, flesh, fowl, vegetable, fruit nor cereal, but only a shapeless mass of undigestible food, which President Taft properly proceeded to pitchfork with his veto into the garbage can of oblivion.

The Scientific Commission will report the facts in December that will enable Congress to frame intelligent legislation on the wool, cotton and metal schedules, and relief will be afforded to the people from high prices on the articles.

Such relief will not even await the passage of the law, for as soon as it becomes apparent that the report of the commission will result in a reduction in the tariff on woolen shirts the prices of the stock of shirts then on the shelves of merchants will be reduced accordingly, for commerce attends upon prices, and its helmsmen shift the rudder of the boat to conform to the varying currents and eddies of the stream.

The manufacturer who is not content with the legitimate profit that will be secured to him by a tariff based upon the difference in the cost of production at home and abroad has the privilege of closing the doors of his factory. Nor will he be suffered to gain illegitimate profit by the abolition of duties on raw material. Indeed, to define with accuracy, there is no such thing as raw material. Cloth is the raw material from which a coat is made, wool is the raw material from which the cloth is made, and wool cannot strictly be classed as raw material, for human labor has been invoked not only to shear the sheep, but to feed and herd them. The Scientific Commission will inquire into the cost of Argentine wool produced in a country where herders and shearers and packers work for \$7 a month and supply their own food, and of California wool produced in a State where the men on the sheep ranches receive \$30 a month and are fed on the best the market affords.

The able speech of President Taft was not merely an unanswerable reply to those who criticized his veto messages. It was a powerful, a persuasive and a logical argument in favor of the Republican doctrine of protection of American industries. The dominant issue next year will be, shall the Democratic doctrine of a tariff for revenue only be substituted for the Republican doctrine of protection? It will be not only the dominant issue in the nation, but in California and other States where the initiative, the referendum and the recall have been fought to a finish, it will be the only issue. On that issue President Taft is the logical Republican candidate and his renomination may be considered as certain.

#### WILLIAM THE PEACEMAKER.

We have had our great President among us and heartily congratulate the public of Los Angeles and of Southern California upon the earnest greeting we have been able to give him and the good taste with which the programme was carried out. There is one feature of President Taft's character and one element in his administration and efforts that enlist the hearty sympathy of all persons worthy the civilization of our time. We refer to his persistent, effective and earnest endeavor to promote the peace of the world.

It is the proudest boast of our nation that the United States is foremost in the greatest work of this generation, that of conserving the peace of the world. The other day when Italy declared war upon Turkey the helpless Ottomans turned to the United States to beg our interposition in behalf of peace. Yesterday Russia approached our government soliciting our country to take steps for the preservation of peace in China. The latest news from London bears an account of the great enthusiasm stirred up among the English propagandists of international peace because of President Taft's peace treaties between Great Britain and our country and the other treaty with France.

In this London dispatch is a quotation from an English writer, Reginald McKenna, not a peace propagandist, which reveals the deepest root out of which the whole subject grows. Mr. McKenna, in looking at the international situation as it is today, says

### Coming to Life.

that it revolves around "the freedom of the great highway of the seas on which our very existence depends."

What does Mr. McKenna mean by the freedom of the seas? Does he mean freedom for English commerce to establish a monopoly in the carrying trade of the world? If this is what he sees, then no wonder he is an advocate of a navy for his country capable of controlling the commerce of the world. But if he means freedom of the seas for the merchant marines of all nations, then he should belong to the peace propagandists. That is the crux of the hostile feeling existing between the people of Great Britain and those of Germany. Each country is afraid that, unless it has a navy capable of protecting its merchant ships, the other will attack it and destroy its commerce. When overseas commerce is carried on upon the same peaceable principles that govern overland commerce in individual nations, then there will be no longer any need of great fleets of warships to protect the merchant ships. Commerce will be free upon the oceans as it is now upon railroad lines, and no pirates will be permitted to prey upon fleets of other nations any more than bandits are recognized as having a right to hold up trains.

#### THE ADVANCING CITY.

Los Angeles makes great forward strides in everything, and in nothing more than in her financial affairs. We do not have to look back a great many years to the time when the day's bank clearings ran to \$1,000,000 and still fewer years to the time when \$2,000,000 a day measured this movement of money. It seems only yesterday or the day before when the bankers and business men of Los Angeles were excited over the announcement that clearings for a day had reached \$2,000,000.

But on Friday of last week the clearings came to \$5,460,785.73. This was almost \$2,900,000 above the corresponding day a year ago, and not merely twice as much, but more than \$3,000,000 in excess of the clearings for the corresponding day two years ago. The clearings for last Friday were very nearly as much as those for a week not many years ago. For the past week the total figures came to \$16,605,663.93. Now, while the enormous figures for Friday are partly accounted for by the fact that the day before was a holiday, this will not hold good for the whole week. There were two bank holidays last week, so that for each of the four days the average was considerably over \$4,000,000. For Saturday, a half-day, the figures reached \$4,596,627.48. For the week the clearings crowded up uncomfortably close to twice those of two years ago.

The bank clearings for the country are made up from Friday to Friday, and for Los Angeles for the week the clearings for Los Angeles amounted to \$17,349,025. This was more than eight times the business done by the Oakland banks; and no other city in the State except San Francisco reached the \$2,000,000 mark, only two of them showing \$1,000,000 clearings. It used to be that of San Francisco as one drop to a barrel of water. We are now half-way up.

#### THE REVOLT IN CHINA.

Seven hundred years ago Temupin, the great Tartar chieftain or khan, completed the conquest of China. He organized a monarchy, the King whereof was to be elected by the khans. Temupin was elected king, and thereafter was styled "Genghis," or "greatest" khan.

Genghis Khan established slavery and legalized polygamy. He proclaimed a code of laws. For petty thefts the criminal was beaten with a stick, the number of blows being proportioned to the nature and aggravation of the offense. The punishment for stealing cattle was death. Robbery, murder, adultery and bearing false witness were all capital offenses. He entered into

extensive trade relations with Turkey and tolerated Mohammedanism and all forms of religion in his dominions, although the Mongols had a religion of their own. He took good officers into his service wherever he could find them, without paying any regard to the nature of their religious belief, so far as their general duties were concerned. Education was made the test of preferment, and every office in the empire, except that of Emperor, was open to every man, however lowly in origin.

Genghis Khan conquered the Sultan of Turkey and extended his conquests over all the western part of Central Asia. He overran Persia, went entirely around the Caspian Sea and approached the confines of India.

Genghis Khan accepted four of the five points of the Mussulman faith. He believed in one God, in praying to him five times a day, in giving one-fourth part of one's income to the poor, and in setting apart one month in each year for fasting. He rejected the fifth point, which consisted in making a pilgrimage to the temple in Mecca, there to worship God. He insisted that the whole world was God's house and it was ridiculous to imagine that He could be in Mecca more than in any other place.

Genghis Khan called together a grand diet or general assembly of the states of his empire and the khans and chieftains were members of the diet.

Three years later, in 1227, Genghis Khan died. His sons and successors quarreled among themselves and the empire which he constructed fell to pieces. Yet the civilization which accompanied its formation remained, though, unlike European civilization, it has not progressed much in the succeeding centuries.

The present revolt in China is more extensive than any of its predecessors. It is said to be the offering of imperial misrule. The demand of the rebels is for a written constitution and for a national assembly with a voting and lawmaking, as well as an advisory, power. Two years ago there was a national assembly made up of delegates from every provincial assembly in the empire, but it was without even advisory power.

The financiers of Europe refuse to furnish funds to either the government or the rebels, and so far as at present appears, both sides will be left to fight it out without outside assistance. Yet other powers may be compelled to interfere to the extent of protecting the property and lives of foreign residents in China, and if there shall be a general break-up without a complete reorganization such interference may extend to the acquisition of "spheres of influence" which will closely approximate territorial annexation.

The Poet Philosopher.

The summer's gone, where summers stray—  
 The summer's gay and bright and rosy!  
 And now the autumn's on its way to that  
 dim bourne where autumns mosey.  
 The flies are dead—those playful elves, whose  
 antics made us sore and surly; and now  
 we'll have to hump ourselves and do our  
 Christmas shopping early. There are some  
 duties that'll bite in this dark world of woe  
 and weeping, some jobs which make my  
 molars grate when I'm awake and when I'm  
 sleeping. Some tasks we have to do are  
 boring in life's unpleasant hurly-burly; we  
 hate to chase around the stores and do our  
 Christmas shopping early. That slogan's  
 flung into our ears by tiresome journal-  
 istic preachers until it fills our eyes with  
 tears, for we are poor, weak, human crea-  
 tures. Such preaching gives us all the  
 blues, and makes our tempers short and  
 curly; so let us one and all refuse to do our  
 Christmas shopping early.

#### BURDETTE AT THE BAT.

CL.

More Poetry Than Truth.  
 The other day I picked up a copy of the  
 Epworth Herald and this is what I read in a  
 featured poem—  
 "O, could the roses bloom  
 All the year!  
 But flower fires consume  
 Beauty to ashes upon nature's altars;  
 In vague and fateful sighs the wood-song  
 falters;  
 A lonely spirit grieves by summer's bier;  
 O, roses cannot bloom  
 All the year!"

Now, isn't that just like a poet? Before  
 the government issues a poet's license to  
 anyone who burns with the flaming desire  
 to couple moon and June, tin and gin, roan  
 and home, and love and dove at the end of  
 lines of equal length—which is what con-  
 stitutes true poetry, the applicant should be  
 compelled to pass a rigid examination in  
 plain grammar-school geography. Ninety  
 per cent of the candidates would fail and  
 that would spare the world a great deal of  
 ignorance and poetry.

It is very discouraging. Just as the spirit  
 of progress spreads her bright wings over  
 the land and wisdom crieth in the streets  
 and beseeches us to consider her a sister,  
 and the orators have instructed President  
 Taft concerning the matchless beauties of  
 his climate and the unmeasured prosperity  
 of this wonderful State, along comes a poet  
 whose study of climate has been confined to  
 Winnipeg, Manitoba, the Dominion of  
 Canada and spreads the rumor far and wide  
 that "roses cannot bloom all the year."

#### A Propaganda of Error.

True, the statement is utterly untrue.  
 Every child in California knows that  
 roses are an ever-blooming diurnal. And  
 everybody on earth ought to know by this  
 time that Pasadena's great out-of-door  
 Festival of Roses is held on New Year's Day,  
 which this year falls as early as the 1st  
 of January. But people are so gullible, and  
 poetry is so easy to read, and many poems,  
 like this one under review, possess such a  
 charm of meter and beauty of expression  
 that people will read and become convinced.  
 Now, something should be done to correct  
 this erroneous impression which the poets  
 are stamping upon the unthinking minds of  
 careless people.

Let us have done with this nonsense. In  
 a little longer than two months the merry  
 Christmas time will be here. And already,  
 I doubt not, the exchange editors are elp-  
 ing stuff from the papers of the effete  
 East, and that forlorn waste north of the  
 St. Lawrence about half and sheet, the  
 drifted roads and ice-bound rivers, the lake  
 concealed by the frosty breath of eternal  
 winter and all that sort of refrigerator  
 poetry for reproduction in a world of sum-  
 mer warmth and laughing sunshine. Let  
 us whip those poets of the chiblain and  
 frost-bite out of California with scourges  
 of roses. Let us demand, "of which it may be  
 said, 'See, this is new?' It hath been long  
 ago, in the ages which were before us."  
 Three hundred and seventy-six years be-  
 fore the Christian era, while the President  
 of the republic of Rome was off at Veil  
 making a Latin speech to the country fair,  
 the Lictors' laws passed both houses of  
 Congress, and one of these statutes pro-  
 vided that "the poor should be helped to pay  
 their debts." Of all debts on which interest  
 had been paid the interest should be de-  
 ducted from the principal. Another pro-  
 vided that no man could hold more than 320  
 acres of land. Wouldn't that cut up a few  
 California farms? And no man could pas-  
 ture more than 100 head of cattle on the  
 public domain. An American cattle baron  
 would break a blood vessel laughing at that.  
 And we American people—and the English  
 as well—foolishly think that we are con-  
 fronted with new problems in these latter-  
 day questions of wealth and poverty. Lic-  
 tius has been dead for more than twenty-  
 three centuries and his laws have been re-  
 pealed, but the subject is still under discus-  
 sion and he is not here to explain his bill.

The highest civilization has been struggling  
 with this one problem, what to do with  
 poverty, for 2300 years of increasing educa-  
 tion and growing intelligence, and we ap-  
 pear to be about as near to a conclusion as  
 we were when Licinius Stolo a Roman poli-  
 tician, was tribune of the plebs.

#### The New Candidate.

"Mother, who is it that rides so late?"  
 "Hush, my child, 'tis the candidate.  
 His red roan steed he has traded away  
 for a touring car of blue and gray;  
 And now in a run of a single day  
 He covers more country, far and wide,  
 Than his father could do in a fortnight ride;  
 He speaks where the city thousands swarm;  
 In the country; at lonely farm;  
 By factory gate; in village street;  
 In crowded mart; by still retreat—

"Howdy? Howdy? Howdy do?  
 How's your husband? How are you?  
 Oh, it fits my hand like no other human.  
 The gentle hand of the voting woman!"

Where sweet Maud Muller takes the hay,  
 He pauses to pass the time of day;  
 He halts with his best and lowest bow,  
 Where Kitty is milking the Jersey cow;  
 He drives in the shadows sweet and cool,  
 Bringing the school ma'am home from  
 school;  
 And rests a while in the evening air—  
 Where mother sits in her sewing chair—

"Howdy? Howdy? Howdy do?  
 How's your husband? And how are you?  
 Oh, it fits my palm as no other human.  
 The gentle hand of the voting woman!"

"How's Aunt Annie? And Sister Nell?  
 When did you hear from your Cousin Belle?  
 And your youngest daughter is twenty-one?  
 Bless my soul, how time does run!  
 But I'd never guess it, to look at you!  
 How is your mother? And dear Aunt Sue?"

"Howdy? Howdy? Howdy do?  
 How's your husband? And how are you?  
 Oh, it fits my hand like no other human.  
 The gentle hand of the voting woman!"

He asks for Clara, Lucille and Mae,  
 Inez and Lucy, Natalie, Fay;  
 Maud and Marion, Katherine, Nan,  
 Edith and Agnes, Helen and Fan,  
 Alice and Harriet, Mary and Ruth,  
 Annie and Ida—try as he can—  
 He never can think of the name of a man!

NEW YORK, Oct. 17.—By a score of 2 to 1 in eleven innings of baseball as sensational as a world's series has ever furnished, the Philadelphia Athletics defeated the New York Giants here today and jumped into a lead of two games to one in the series for the world's championship.

The White Elephants achieved this feat on their rivals' own ground, facing the great Mathewson, who had puzzled them into the loss of one world's series and who had started bravely in an attempt to make history repeat itself.

Three times in 1905 and once this year, the Athletics had fallen victims to Mathewson's wizardry. Today they finally broke through his guard and fell upon him so heavily in the latter part of the tense struggle that the great boxman and his mates were swept off their feet.

Backed up by the splendid work of Jack Coombs, the Kennelbunk "iron man," who pitched one of the greatest games of his career and held New York runners from the third inning almost to the game's end, the American Leaguers pounded their way to victory. They tied the score when Baker, their brilliant third baseman, who won yesterday's game with a home run, drove one of Mathewson's benders into the far reaches of the right field for a homer in the ninth. They won out in the eleventh on three safe hits, helped out by two Giant errors.

The Giants did not give up without a struggle, and a hard one. A double, followed by an error, gave them a run in the last half of the eleventh. But there were two out when the run came over, and it was the Athletics' game when the only occupant of the bases was out trying to steal second.

Jack Coombs, hero of last year's world's series, earned further laurels by letting down the Giants with only three hits. Two of these came in the third inning, resulting in a run, and then Coombs was untroubled until the eleventh when Herzog set a rattling double to the left field fence.

Coombs struck out seven men, Snodgrass fanning twice, and Herzog, Devore, Doyle, Meyers and Mathewson once. The Philadelphia hurler passed four men, but none of them figured in the scoring.

BY GREY OLIVER.

Vernon, 6; Los Angeles, 2.

Thinking that the pennant race had already been won by the Beavers not more than 500 fans went out to see the ball game yesterday when the Tigers played the first game of the last week of the season with the Angels. Vernon won largely through the errors of the local team.

As a matter of fact there was not enough enthusiasm in the game to make even one of the Seven Sleepers for the Tigers were evidently worn out from their strenuous exertions with the Oaks and the Beavers during the past two weeks. The play was very fast but this was largely due to the fact that the pitching of both Palmer and Hitt was good.

The feature of the game was the playing of Patterson at short. All summer he has been at first base for the Vernons and some of the fans thought he was good for nothing else but he played a fine short, with four outs and three assists without a single error. Best of all he showed them something in the eighth that opened the eyes of the rooters.

In this case started off with an out at first base and then Ross doubled to right field. Patterson drove a base, Brasher went out at first and Stinson singled past the base, scoring Ross. This put Patterson on third and he stuck there while Stinson stole second. Then as Palmer started to wind up to pitch to Hogan Patterson made a dash for the plate and stole home. Stinson also stealing third. It was a very daring piece of work and so rattled Catcher Brooks that he dropped the ball as Pat slid to the plate.

The Tigers got their first run in the second without a hit. Stinson walked and then when Palmer tried to catch him off first Abbott allowed the ball to get away from him and Stinson ran to third, scoring a moment later on Hogan's sacrifice squeeze play. In the sixth, Stinson singled to first, Abbott's wild throw of the ball past Palmer, Ross's out and Patterson's sacrifice fly scored the second run.

In the ninth with two out Hitt beat out an infield tap to third base, ran to second on a hit. Stinson scored when Hittmuller threw the ball over the head of the third baseman. Kane reached third on a sacrifice and scored on Ross's infield error. The Angels began on Hitt in the fifth for their first run which started with Abbott's double to right. He went to third on Hittmuller's single to center and scored when Howard felled Hitt at second. Day's triple and Hittmuller's sacrifice fly in the seventh scored the final run for the Angels.

Hap Hogan played first base and alone with a long running out catch. A new busher named Sadler was used at third by Vernon and while he did not hit, he handled his three chances very nicely. Charlie quit the game after the first inning on account of a bad finger. Kane filled in at center and made two hits.

## SOCCER TEAMS HAVE GAME FOR SUNDAY.

The Hibernian soccer players had a big meeting last night and, after transacting some important club business, selected R. Riley as captain of the new team.

The Irishmen are to play the Thistle team at Pleas Park next Sunday afternoon in the first game ever scheduled between the two organizations. The Irishmen are to select their team from the following players: T. Greaves, R. Riley, Burns, McLinden, Howells, Morris, Burrows, Stevenson, Lutton, Finley, Walsh. Interesting play is expected.

## LANDS HIT ALBACORE.

"Pop" Warren added another to his already numerous laurels Sunday morning when he pitched a four-hitter on a 3-6 tackle. The strike was made off San Pedro and it required all of Warren's ability to bring the ball back to the staff.

The record of the catch was filed with the secretary of the Southern California Rod and Reel Club.

**TENNANT TRIAL OVER.**

In the United States District Court yesterday the case of Frank Tennant of Long Beach indicted for embezzlement, went over until the January term of court. Tennant was an employee of the Long Beach postoffice and it is alleged that he abstracted a number of small articles from the postoffice. He has been at liberty on bond.

## OXY FRESHMAN QUITS SCHOOL FOR WEDLOCK.

Clarence Barker, last year's freshman tennis expert at Occidental College, slipped something over on his friends last week by suddenly disappearing from school.

For a week or one knew what had happened to him until this morning it leaked out that he had taken unto himself a wife, said to be one of Pasadena's belles.

He has quit school for good and gone into business. He will be a great loss to the "Tiers" champion ship squad, as he twice defeated Kenneth Newell, the hope of U.S.C. last year.

## L. A. HIGH IS SLOW IN GETTING INTO SHAPE.

With no important game on for this week the Los Angeles High School team will have a chance to get in some much needed practice on new plays. The team has been playing contests every week and have had very little time to develop anything but straight Rugby, as there were so many new recruits on the squad that it was dangerous to send them into a contest unless they had been thoroughly drilled in the fundamentals.

The team has shown up exceptionally well in the games thus far, although it has not encountered any of the better class of opponents. The next big game is to be played with the Pomona High School on the 28th of the month and from the records of last year this should be the hardest game of the season.

Although most of the men in the line-up of the blue and white squad were strangers to the game at the beginning of the year they have come around into one of the best scoring teams that the hilltop institution has turned out.

It is a curious fact that the scoring record of the first game ever played by the Los Angeles High School was never exceeded until the game with San Bernardino High this year. In the first game played in the new style, Los Angeles defeated Riverside by the score of 23 to nothing, which was never bettered in all the ten or eleven games the championship team last year.

On account of the number of fast men they have placed in the line, there has been a pile up the points faster than ever, and in the last two games in two short halves and 26 and 33 points their credit when the final whistle blew.

The personnel of the team is as much an uncertainty as in the past, but the coach has shown the necessity to keep the goal line safe. They are not nearly as aggressive as the Polytechnic players, and are slightly weak on the tackling game.

This defect will be remedied in the next two weeks, however, as the field players are given a lot of practice which will enable the men to get some tackling practice without being laid up for a day or so after a full attempt. This week has found Capt. Vard Conway on the job, and he will be given a thorough try-out to see if he can handle successfully this difficult position.

Brooks and Condee, at second five and three quarters respectively, have

been putting up the star game for the team and although both of them can play in some of the other weak positions, Coach Noble has been unwilling to break up their successful combination and is still looking for the right man to show up.

It was a loose game in point of fielding and there was plenty of hitting. Score:

**SENATORS AND OAKS IN BATTING FEST.**

(BY A. F. NIGHT WIRE TO THE TIMES.)

SACRAMENTO, Oct. 17.—Sacramento and Oakland had a session of average-fattening today, the locals piling up sixteen hits while the visitors found Byram for a total of fourteen hits. But Sacramento made their sixteen hits count for fourteen runs when aided by five Oakland errors. Sacramento winning 14 to 5.

In the sixth inning nine men faced Gregory. Lewis's home run, Van Buren's triple and two singles went for six runs when aided by a base on balls and errors by Tidemann, Cutshaw and Menges. Thornton made a home run in the eighth on a long drive inside the fence to left field. Score:

NEW YORK, Oct. 17.—[Exclusive Dispatch.] Jim Smith of Westchester proved too fast and clever for Tom McMahon of Pittsburgh in a ten-round bout at the Empire A. C. tonight.

In the early stages of the milling McMahon took such a commanding lead that it seemed merely a cakewalk for him to beat Smith out of the honors. He dropped Smith three times.

## GIANT RACERS READY FOR MOTORDROME SPEED FEST.

SEVENTEEN fast motor cars are entered in the two days' automobile meet at the Motordrome Saturday and Sunday. The Automobile Dealers' Association of Southern California yesterday took full charge of the meet and A. M. Young will manage the races. Fred Wagner, official starter for the Automobile Association of America, will remain his post on the speedster and will send the cars away on the long and short events.

Teddy Tetlaff, who lost the free-for-all at Santa Monica, was out on the boards yesterday tearing off miles in the 100-mile event which Anthony entered. He has a chance to win the short events and may figure as first place man in the shorter sprints.

Louis Nikrent in the Buick is entered in the light car events and Rose Anthony will drive the Regal. This car is faster than it was at Santa Monica and is in line for a first place in the 100-mile event which Anthony will enter. This means a few thrills for the crowd when the smaller cars get away.

Charlie Y. Boothe will be on hand with the National crew. Yesterday Johnny Atkin of the National camp stated that he would be in the factory in preparation for the Vanderbilt Cup Race at Savannah.

Howard Wilcox will have the big National "fifty" ready for a speed dash and Charles Metz will be his big racer. It will mean a fight to the finish on the fastest one-mile circular track in the world and the Motordrome is in shape for a meet, as there is not a bump or a fault in the smooth surface.

The total cash prizes amount to \$5000 and are divided much as they were at Santa Monica. The cars are hooked up according to piston displacement and the races should be a fight until the last mile is turned. The fast cars that are here for the Santa Monica road race make it possible to hold the meet at this time. These cars are the speediest on earth and several of them will figure in the Savannah Grand Prix event and in the Vanderbilt.

Boothe of the National agency yesterday was host to a large number of drivers at a dinner given at Redondo. Tetlaff, Howard Wilcox and Charlie Metz were the guests of honor and A. M. Young and other members of the Road Race Committee were toasted and honored.

The Quakers will take a trip to the wilds of the Baptists Saturday afternoon. They do say that the followers of immersion have got something up at Redlands and that the Friends are going to be rudely awakened when the referee's whistle sounds. These men up in Redlands are a long way off, however, and we will have to be shown. With Oxy and Pomona going so well it looks as though Whittier and Redlands are going to fight it out for the cellar championship of the conference league. The reason for this is not that either Whittier or Redlands have gone back, but that Pomona and Oxy are both better this year.

Last season the Quakers came out of the brush and took a fall out of all the colleges, as has been mentioned before, and now they are looking for them and they are likely to find the going a little harder.

The Oxy second team caused a shilling of the beans last night in the practice brush with the varsity team when they pulled off a new forward pass formation. Freshman Johnson securing the oval and scudding seven cy-five yards for the goal and a touchdown. This little stunt so elated the second string men that the varsity was helpless before them during the rest of the evening. There was much cheering in the gym after the scrimmage, on the part of the scrubs, while all the varsity could do was to gnash its teeth.

The second team learned the cute trick in the game with Ontario High School last Saturday, when the up-country lads scored on them by coasting the ball in. A lesson was learned. There is sure some hope for these young men if they take their medicine like this.

**PRaises AUTO HIGHWAYS.**

Government Agent of Good Roads Pleased With System of Signs by Local Club.

The guide-boards erected along the excellent highways of Southern California by the Automobile Association of this section are the best in the United States," said Thomas W. Wilby, special agent for the government office of public roads, and representative of the Touring Club of America, who arrived at the Angelus with his wife yesterday afternoon and registered from New York City.

He is on an auto tour around the United States, making his trip along the border line as far as possible, and when this is finished he claims that it will be the longest tour on record in the United States.

Wilby said that in some parts of Indiana, Illinois and Iowa, and in some of the New England States a system of marking guides along the roads was adequate but not as elaborate or well kept up as he has found it coming into Los Angeles. He said the "fenced" telegraph posts and trees are used as natural guides, augmented by a few dabs of paint indicating direction, turns, danger, or other necessary road information," he said.

Wilby's stay in this city will be very brief, he having said that it would be possible that he may get away this evening for the North. He is endeavoring to reach Richmond, Va., by November 25, which is the annual convention of Touring Clubs of America will take place.

A number of local automobile men and officials of the association have been acting as hosts to Wilby since his arrival.

### New Mourning Millinery

Dignity with lightness is characteristic of the new all-black hats and bonnets for this Autumn and Winter. Whether the material be uncut velvet, peau de cygne or peau de soie, grosgrain or grenadine, it is cleverly managed so that there is no effect of weight or somberness.

This year we are making a special point of all-black millinery for young girls.

Take ANY \$7.50 to \$10 Taffeta Petticoat from our regular stock for five dollars—a collection of several hundred, including pompadours, Dresdens, changeables, and every solid color you'd care to wear, and solid black.

### Art Goods Attractively Priced

Household conveniences which, while inexpensive, are really artistic—

Electric lamps, 17 inches high and 8½ inches in diameter, brass bases and light green shades, all complete for \$2.00—exceptional values.  
Water tumblers of heavy cut glass—the brilliant whirlwind design deeply cut—specially priced at \$6.50 a doz.  
Tubular glass vases, 9 inches high, brass bases and mountings, \$1 each.  
Cretone-covered boxes for handkerchiefs, gloves and ties—generous sizes and well made—50c each.

### New Hats Need New Veils

Latest from Paris are of lace in the large bold patterns which are becoming more and more popular. Black; black on white; black on flesh color; champagne; navy blue. \$1 to \$3 a yard.

Made veils \$2 to \$65 each.

Lewis S. Stone of the Belasco company is this week enjoying the first real vacation he has known during his long career as a local actor. Of course, Stone has had other respites from work, but they have all been of the usual "stage variety" without any visit from the treasurer at the end of the week. The one dash of gloom that may have a tendency to mar the actor's otherwise happy frame of mind is the fact that he will be required to attend daily rehearsals of next week's production of Frances Hodgson Burnett's "The Dawn of a Tomorrow," in which he will have the role of Dandy, the thief, while Beale Barriscale plays the Gertrude Elliott part of Glad.  
John Harley, who is now in Los Angeles prelude to H. B. Warner in "Alias Jimmy Valentine," calls attention to the interesting fact that his firm, Lieber & Co., makes it an invariable rule not to send any number two companies to the Coast. This managerial plan has been in operation for the past two years and the results have been so eminently successful that George Tyler, the managing director of the firm, promises to continue to send nothing but his original stars and supporting organizations to Los Angeles, San Francisco and other Coast cities.

### Exquisite Tunics

A NOTABLE tunic that is being displayed in the Annex windows is of ecru silk, hand-run in Bulgarian shades. It is draped over brocaded satin and presents an elegant appearance. Another handsome tunic—exceptionally rich in a net of black Brussels—is silk-embroidered in King's blue. Then, too, there are tunics of cream, with gold bands fully 13 inches in width, at the hem of the skirt and outlined with gold at the yoke and sleeves.

H. B. WARNER IN POWERFUL MODERN PLAY.

Not of Original Cast to Occupy the Hamburger Majestic Stage. New bill at the Empress Theater. Incidental Theatrical News and Paragraph Mention.

BY JULIAN JOHNSON.  
"Alias Jimmy Valentine," to be seen at the Hamburger Majestic Theater next Monday night, promises to be the most interesting play of the early season.

A play possessing a good deal of modernity, intensity, strong human sympathy and the pre-eminent advantage of a "good story," "Alias Jimmy Valentine" has also the advantage of most of its original cast, including H. B. Warner, the creator of the title role.

H. B. Warner is a son of the late Charles Warner, memorable for his acting in "Drink."

Born in London, and educated in a grammar school, Mr. Warner was a young man. Before coming to America he had considerable training in a valuable kind in English.

Mr. Warner has shown there has added to the play named after the actor's fund fair a name in America. It was a prize of \$100,000. The play was written by the actor-manager in the flood of his successes. Warner has been his nearest competitor, Mr. Francis Wilson, by more than 100 votes.

In the grand dash for first place between three acts on the new Empress Theater bill this week it is rather difficult to pick the winner, so close do three of the new acts come under the wire, each receiving an almost equal amount of applause.

However, as the La Vite Cimaron Trio are billed as the week's head-line attraction, the decision will go to them. The La Vite Cimaron Trio is composed of three clever people, two men and a woman, each in a distinct class by themselves in different lines of athletic work, which, put together, form a highly-entertaining and amusing skit titled "Imagination." Perhaps the only thing to imagine is just why the act was given such a title, for one is left nothing at all to imagine.

Miss La Vite is a contortionist, the equal of whom has not been seen on a local stage in many a day. The black-face member of the trio is an acrobat who takes some awful chances with some awful falls and creates a whole lot of good fun in taking such chances; while the third member of the company is an exceptional tumbler. In fact, an extraordinary athlete. The act is lively and well worth the position it occupies on the bill.

For a close second come Geiger and Walters in a novel and really high-class musical act termed "In the Streets of Italy." They are both instrumentalists of unusual ability and render selections ranging from the classical to rag-time with a marked degree of excellence.

Third in the race for first place is "A Leap Year Leap," a witty and snappy little one-act comedy presented by William Hutchinson and Rosamond Harrison. Hill and Ackerman are knockabout comedians with a line of "Hoot Mon" comedy. Terry and Lambert are seen in a series of interesting and entertaining character
